

Quality Policy

Everlight Chemical realizes that world-class quality and customers' satisfaction provide the foundation for sustainable development, we define Everlight Chemical Quality Policy as:

Customers Caring With Value Creation

And adopt the following strategies:

1. Listening to the Voice Of Customers and understanding their real needs.
2. Developing new products to increase customers' values.
3. Providing professional services to solve customers' problems.
4. Fact-based analysis and continuous process improvement.
5. Managing hazardous substances and producing "green products".
